

Warren Guitar Tele Style

TRY THESE SETTINGS AND ENJOY

Position 1

BRIDGE PICKUP BY ITSELF. (Vintage Tele style)

Position 2

BRIDGE AND MIDDLE PICKUPS (Just like a Strat)

- CAN BE MADE FATTER (humbucker type tone) BY PULLING OUT THE TONE CTRL. (nice for pushing a slightly gritty tone to more bark and bite)
- CAN BE COMBINED WITH NECK PICKUP FOR ALL THREE PICKUPS ON AT THE SAME TIME BY PULLING OUT THE VOLUME KNOB

Position 3

STANDARD BRIDGE AND NECK TELE SOUND

Position 4

MIDDLE AND NECK PICKUPS (Just like a Strat)

- CAN BE MADE FATTER (humbucker type tone) BY PULLING OUT THE TONE CTRL.

Position 5

VERY NICE VINTAGE NECK PICKUP SOUND.

CONTROL POTS - SETTINGS

VOLUME

- MAINTAINS THE HIGHS AS YOU ROLL IT BACK. VERY USEFULL FOR GOING CLEAN WITHOUT MUDDINESS.
- AS YOU ROLL IT BACK TO 8.5 YOU OBTAIN A SWEET OLDER VINTAGE TELE STYLE TONE. SIMILAR TO THE UNDERWOUND PICKUPS OF THAT ERA.
- PULL OUT TO ACTIVATE THE NECK PICKUP IN THE #2 POSITION TO LET YOU HAVE ALL THREE PICKUPS ON AT ONE TIME.

TONE CTRL

- CAN BE PULLED OUT TO MAKE THE NUMBERS TWO AND FOUR POSITONS FATTER (humbucker type tone) (nice for pushing a slightly gritty tone to more bark and bite)
- AT # 5 IT IS NEUTRAL (5 in this case means the set screw pointing straight up)
- FROM 5 TO 10 YOU INCREASE THE MID RANGE. VERY GOOD FOR MAKING THE #2 AND #4 FAT SOUND SCREAM.
- FROM 5 TO 1 YOU CREATE A TONALITY THAT MELLOW OUT THE TONE. IN
- ON 1.5 – 2.0 YOU CAN FIND A MORE ACOUSTIC STYLE SOUND IF YOU LOWER THE VOLUME TO ABOUT 8.
